ARTIST'S STATEMENT

We have the prettiest house in the land but don't scratch the clap boards or you will expose the rot. Don't look in the mirror for you may see the hopeless beggar on their way to the gallows of spiraling debt and unreliable employment. Don't think about that for surely the problems lies in exposed skin, interlocking body parts and unaffordable gestatation.

These pictures represent interpretations from the last 25 years. They are a rejection of the unquestioning cult of empty positivity in our society. They represent disappointment that the propaganda was not true and what I was drinking had a very bad after-taste.

I have taken bits from from Goya, Vonnegut, New Objectivity, comics and cartoons; cut them up and shuffled them around into a mish-mash of junk and then tried to assemble it into a beautiful blackness.

Thank you,
Anthony Baker
